

# Flight After Inactivity and an Overview on Automatic Dependent Surveillance (ADS-B).

Pilot's who return to flying after a period of inactivity are at greater risk of mishap than pilots who are current and proficient. We will discuss how to keep your knowledge & skills honed to a razor edge.

Northern California TRACON Automatic Dependent Surveillance – Broadcast ADS-B is a "surveillance technology". Learn the mysteries of this new system and what it means for the future of Flying.

**Directions:** Air Spray Hangar, Chico Municipal Airport, 77 Piper Avenue & Fortress- cafeteria upstairs. Enter front main entrance if driving. Enter through main hangar if flying in.

## A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
